

U.S. District Court for the Western District of Pennsylvania

2019 Courtroom Technology Training Schedule for Erie, Johnstown, and Pittsburgh

Courtroom technology training seminars for attorneys, paralegals, and other support staff will continue to be offered throughout 2019. These sessions explain the capabilities and function of the audio-visual equipment that is available for use in trials and other court proceedings. The technology resources available in all three courthouses will be reviewed in each session regardless of location.

Attendance at one of these sessions is strongly recommended for anyone who expects to have a trial or other need to use the District's courtroom technology and has not attended a prior training seminar.

Prior attendees are welcome to attend again as a refresher or follow-up. Many of our courtrooms have been upgraded, or are in the process of being upgraded, with new high definition computer connections and evidence monitors.

All sessions are held on Fridays, beginning at noon, and run about 45 minutes in length.

Pittsburgh Sessions

April 26th

July 12th

October 4th
