Repost	1019	TexasVet	10/19/18 8:21 AM	Every time a white country is being invaded by people of color you will find evidence that the Jews are behind it somehow. Here is a picture from the now 4000 strong caravan headed for our southern border.	33	15
				Note that the truck carrying the migrants has a Star of David clearly visible on it. The Jews are trying to erase you white man so that they can control the whole world.		
				You are the ONLY thing left standing in the way of their (((Globalist))) One World Order. Call me a racist or a Nazi. I don't even care anymore. All I know is that my people are under attack, and we're losing. #RiseUp #14Words

**THE READING LIST OF** 

\$

## THE NEW AWAKENING

This exhaustive reading list has been designed with the intention of giving you not only the National Socialist worldview, but the historical context for it, as well as the historical importance of the driven character: the man inspired by the "flame of life". As a consequence you will find books featuring not only Adolf Hitler, but Martin Luther, Frederick the Great, Napoleon, and Bismarck. The various paths along the reading list have been designed in such a way that the preceding books provide context and background for the books after them. History, politics, religion, tactics: all are covered. It is not necessary to follow the reading list in the order given, however it certainly helps. Some of the texts will contain elements which are not part of the National Socialist worldview, and these sections must be disregarded. It is the responsibility of the reader to practice Hitler's art of reading, and to separate what they need from what they do not need.

An example of how the reading list path functions goes as follows: when one reads the history of our race in March of the Titans, one goes forth to Martin Luther, which leads to his On the Jews and their Lies, which leads to The Holy Reich. Alternatively one can find that where one has books on Esoteric Hitlerism, painting Hitler as a deity, below there are books which show Hitler the man, and remove the deification. Esoteric Hitlerism is useful in its recognition of Adolf Hitler as a divinely inspired man, but he was not the only divinely inspired European hero, as you will find by reading the other texts featured regarding the other significant men of our history, such as Luther or Napoleon. The reading list is ultimately intended to lead you towards the Northwest Imperative, outlined by Harold Covington.
