Hi Rob,

Thanks for checking us out. The frame difference on the G21 versus the G21 sf is substantial different and requires a different gun mold. So it is kind of for our benefit in production, although in practice either will fit the same kydex piece. The G30 and G30 sf will fit either mold and uses the same gun mold on this end, so we put them together. I hope this answers your questions. If there is anything else you need or if I can help in any other way please let me know. Have a great day!

Hello.

On the page:

<http://www.whitehatholsters.com/Solid-Color-Replacement-Kydex-p/solid%20color%20kydex.htm>

At section:

Gun Manuf. & Model*

Why are the Glock 20,21,29 separate from the sf models when the 30 has both for the same?

Thank-you,
Rob
